

CARPLABS®

2017

Fishing tackle developed by CARPLABS is a highly specialized gear, fully dedicated to carp fishing. Unique product design and testing uses advanced scientific methods. That allows for making an objective evaluation of highest priorities: top performance and maximized efficiency.

Only a few fishing methods are close to specialization and fish care like carp fishing is. That is the reason why common solutions and average quality tackle is far below the expectations of those for whom carp fishing is more than a passion, and becomes a lifestyle.

There is no time, space or will to guess and play with mediocre tackle. We are giving you what has been tested by ourselves on many different fisheries through all over the Europe. The result of hard work, experiments and rigorous tests has resulted with top notch tackle which by far exceeded our expectations.

Our work is still not finished, as we keep testing new items, you should expect more innovations and creative development for both tackle and techniques. This all has one thing in common: to increase and improve efficiency of fishing.

### The Bunker 2 Man tent

Art. no 765 000 174

There are things you can do something about and there are some you cannot. For instance, we cannot show you where the carps are biting right now, but we can surely make you comfortable waiting for that bite!

The Bunker's cover is made of Aquatexx, a fabric which has passed a 10,000mm static column water resistance tests with high breathability. Basically, there isn't any kind of downpour or rain-storm that could be a problem for this beast. Speaking about the elements, shape of this tent is designed in a way to withstand any blast of wind. All of that makes The Bunker a perfect companion for a whole year of fishing.

Inside you'll find enough space for two large beds and all the luggage that you need. Frame is made of aluminum tubes with thick sides, which allows the tent to set easily and firmly. Setting of this bivvy takes less than 5 minutes after a few tries, it's very easy to handle. Also, there are few important additions to mention about: detachable floor, telescopic section spacers with firm latches, and convenient way of venting the tent. Both in front and in the rear there are windows with mosquito nets. Last, but not least, we need to mention the zinc covered steel T-shape pegs, taped seams, and high quality zippers.

#### The Bunker 2 Man

<b>Width (cm)</b>	310
<b>Depth (cm)</b>	280
<b>Height (cm)</b>	140
<b>Main fabric</b>	Aquatexx® 10000 mm HH
<b>Floor</b>	Detachable, woven PVC heavy duty
<b>Frame</b>	Aluminum, Ø19 mm tubes, powder painting, 3 poles with telescopic spacers
<b>Pegs</b>	T-shaped, zinc coated steel
<b>Weight</b>	10,2 kg
	Carry bag included

### The Bunker Over-wrap

Art. no 765 000 175

Indispensable element for cold and humid seasons. The over-wrap is made of the same fabric, exactly same way as the tent itself, so breath-ability and water resistance is exactly the same. Appliace of over-wrap allows to eliminate effect of condensation even when you're drying clothes inside the tent.

#### The Bunker Overwrap

**Main fabric** Aquatex® 10000 mm HH

**Pegs** T-shaped, zinc coated steel

**Weight** 1,2 kg

Carry bag included

**Shell-TR**

Art. no 765 000 176

A perfect solution for short sessions, with space sufficient enough for one large bed or two large chairs and luggage. Setting the tent by one person takes only three minutes. No need to waste your precious time for annoying fight with natural perversity of inanimate objects. This is very important for people who simply don't have enough time for a few day long sessions including setting the whole campsite. Fabric is high density 210D polyester, with 3000mm static column water resistance test. The tent includes a durable, detachable floor preventing from getting your luggage wet.

<b>Shell-TR</b>	
<b>Width (cm)</b>	270
<b>Depth (cm)</b>	210
<b>Height (cm)</b>	130
<b>Main fabric</b>	Polyester 210D 3000 mm HH
<b>Floor</b>	Detachable, woven PVC heavy duty
<b>Frame</b>	Aluminum, Ø16 mm tubes, powder painting, 2 poles
<b>Pegs</b>	T-shaped, zinc coated steel
<b>Weight</b>	5,1 kg
	Carry bag included

**Shell-TR Over-wrap**

Art. no 765 000 177

The over-wrap which transforms Shell-TR to a convenient, full tent. Very useful especially during cold and windy seasons. Fast assemble is also requested advantage, allowing it to be set up in less than 2 minutes. It is made of the very same fabric as the Shell-TR, which is a warranty of quality and satisfaction.

<b>Shell-TR Over-wrap</b>	
<b>Main fabric</b>	Polyester 210D 3000 mm HH
<b>Pegs</b>	T-shaped, zinc coated steel
<b>Weight</b>	1kg
	Carry bag included

## BestRest

Art. no 765 000 178

A word of advice - don't fall too deep in your sleep. Easier said than done as this bed has a magic ability to make you very sleepy, very fast. Extremely comfortable mattress is a thing that you really need to check. Detachable neoprene pillow supports your neck well in any position. The area below the knee is covered with polyester 600D, which is very easy to clean. Adjustable mud feet are easy to level, making it a good choice for unknown places. Czechy:

### BestRest

<b>Length (cm)</b>	206
<b>Width (cm)</b>	88
<b>Height (cm)</b>	27/40
<b>Packed (cm)</b>	83 × 88 × 27
<b>Frame</b>	Steel, powder painting
<b>Matress</b>	Oxford 600D + Polyester 600D
<b>Padding</b>	Polyurethane
<b>Cushion</b>	Polar, detachable
<b>Camlock</b>	yes, adjustable
<b>Weight</b>	11 kg

## Cocoon

Art. no 765 000 179

Warm, multilayered and practical sleeping bag made of Oxford 210D fabric, will let you rest well even when the temperature outside is way below zero degrees. Easy to keep clean and with robust zippers. Composes well with our Best Rest bed.

### Cocoon

<b>Length (cm)</b>	220
<b>Width (cm)</b>	80
<b>Height (cm)</b>	45
<b>Matress</b>	Oxford 600D
<b>Internal fabric:</b>	Cotton
<b>Temperatures</b>	-8°C +22°C
<b>Weight</b>	2,8 kg

**Lazer**

Art. no 765 000 180

Comfortable, reliable and practical. These three words are short, but accurate description of our Lazer chair. Going deeper into some details, you will find a cushion made of Oxford cloth being highly abrasion resistant, covering both back and seat. We have also eliminated the common problem of carp chair armrests being pushed to sides when standing up or seating. Adjustable angle of back support and effective adjustment of mud feet are advantages also worth to mention about.

Lazer	
Width (cm)	49,5
Seat length (cm)	43

Camlock	No
Weight	4,7 kg

## Carrier HA Art. no 765 000 182

Stiffened holdall with separated internal compartment stores, allows for safe rods transportation. External compartment stores are well suited for umbrella, broly, supports and buzzers. Comfortable, padded shoulder strap is designed to put the pressure on the whole space where it connects with your arm spreading the weight.

### Carrier HA

<b>Length</b>	2,1 m
<b>Fabric</b>	Polyester 600D
<b>Stiffening:</b>	jointed 3 section aluminum pole
<b>Weight</b>	2,1kg

## Carrier 70/100 Art. no 765 000 183

Backpack with adjustable volume (70l or 100l), made of heavy duty reinforced fabric. Easy access to main compartment by simply opening top or front cover - no more problems with finding something deep in the bottom. Comfortable, breathable harness and built-in rain proof cover are additions definitely worth to mention.

### Carrier 70/100

<b>Width (cm)</b>	40
<b>Depth (cm)</b>	30
<b>Height (cm)</b>	50/70
<b>Fabric</b>	Polyester 600D
<b>Additions:</b>	2 large external compartments 2 small external compartments documents compartment rain proof cover

## Carrier CA

Art. no 765 000 184

Carry bag with wide adaptations for different needs and purposes. Great as general use main bag, with volume big enough for long sessions. Guarantees to keep your clothes dry and your fishing gear accessible.

## Vector

Art. no 765 000 185

Perfect protection for the reels. Mirror style construction allow to carry two big pit reels with their spare spools. Mentioning spare spool, there is a sewed elastic tape which will firmly hold it in one position, preventing any scratch or damage to your precious reels.

**Order**

Art. no 765 000 186

Handy accessory bag which will accommodate all that you need for a short one day session. High density foam board with hook bar and rig pins will keep your rigs in a perfect tension. Included small boxes are perfect to keep your accessories in order. Excellent solution both for mobile and organized fishermen.

**SafeSpace**

Art. no 765 000 187

Pristine condition of spool edge is a matter of top importance, that's obvious. This is why our spool cover is named that way. Your spools will be safe from harm even in very rough conditions. Easy and convenient access to the spools thanks to the double zip with webbing bridge, together with polyethylene filling are also a plus.

**Safe Mat**

Art. no 765 000 188

Carp care is a way to go, but to do it well you will need a few things. First and most important is large safe mat, allowing to unhook your catch without it taking any harm. High sides prevent the carp from slipping to the ground, while top cover will secure the fish from jumping out of it and keep the it calm. Thick polyethylene padding and waterproof fabric are also worth to notice.

**Advanced Weigh Sling**

Art. no 765 000 189

Safe and strong sling with folded poles, allowing for a safe weighting and carrying the catch. Heavy duty reinforced bottom and stitches are warranty of strength - even largest specimens aren't a problem for this weigh sling. Fabric dries quickly and doesn't soak with fish scent.

## Quad Support SS

Art. no 765 000 191

Strong and reliable rod pod dedicated to everybody who is looking for ultimate quality, without any compromise. Both frame, legs and buzz bars are made of Cr-Ni stainless steel, ensuring long lasting use, without any risk of corrosion which could harm it in any way. There are 3 pairs of legs included: long, medium and short - therefore you can easily adjust Quad Support to any conditions you'll find yourself in. It combines in itself a rod pod and a high pod well suited to use in shallow waters nearby the shore. Quick and easy length adjustment of telescopic legs is a thing worth to mention about.

**Compact Tripod**

Art. no 765 000 162

Lightweight, stable and reliable - these are three most important things characterizing a good tripod. All of those you'll find in our Compact model. Telescopic legs will allow to easily adjust height of this tripod, while rigid frame with stable buzz-bars will firmly support the rods. Adjustable angle of the frame allows to put tips of the rods either almost vertically, or to sunk those a little if it's really windy. Good solution for unknown fisheries.

## Straight SS

Art. no 765 000 193

Classic, straight bank stick made of stainless steel. Strong and reliable, good for any conditions and any fishery.

## Threaded SS

Art. no 765 000 194

Strong, telescopic bank stick made of stainless steel with threaded point allowing to screw it in any kind of ground. Excellent choice to scout any new fishery.

## Expand SS

Art. no 765 000 195

Stiff and rigid buzz bar made of stainless steel, with three sockets for butt rests or buzzers. Adjustable width allows to spread the rods with an ease.

## Double SS

Art. no 765 000 196

Powerful, heavy duty buzz-bar designed to use with two rods. Fully made of stainless steel, what provides long lasting use.

## Carbon Expand BB

Art. no 765 000 197

Unbelievably light, yet astonishingly strong buzz bar made of carbon fiber. Similar to stainless steel version, allows for easy rod spread adjustment.

## Carbon Double BB

Art. no 765 000 198

Carbon fiber based buzz bar with fixed rod spread. Extremely lightweight and still rigid, for all of those who's in a hunt for lightness.

## Specimen Landing Net

Art. no 765 000 190

Pole: 2 m/3 sec.  
Arm: 1 m

Very large net made of incredibly soft fabric which doesn't harm the fish at all. The handle is made of carbon in spigot technology, with 3 detachable sections. Shrink wrap handles allow to manipulate it with an ease. Machined aluminum spreader block is warranty of reliability. Another feature caused by the spreader is very convenient attaching/detaching of the carbon arms.

**Type V**

Art. no 765 000 199

Technologically advanced buzzers for demanding carp fishing experts. Receiver works with maximum of 5 alarms, allowing for wide adaptation. Both receiver and alarms are using 9V batteries. Alarm has got visual and sound bite signalization, and drop back differential. Additionally, you can adjust volume, tone, and sensitivity making it one of the best sets on market. In the alarm you'll find power out socket to connect it with illuminated swingers/hangers. Receiver also has got few interesting features: turn off alarm which will inform you about possible theft, range auto-test vibration, and bite memory. It's informing you continuously for 30 seconds, and after that, every 5 seconds receiver will remind you about the bite. Volume regulation is really wide - from vibration only, up to shrilling siren for convenient customization. Batteries are not included.

**Type I**

Art. no 765 000 200

Compact and elegant simplicity. This set gets best of both worlds: small size and great functions. Just to mention few: adjustable tone, volume and sensitivity, drop back differential and bite memory. Implemented power out socket allows to use it together with illuminated swingers. Receiver have got vibrations, adjustable tone and volume, and range auto-test. Power: alarms 9V battery, receiver 3 x AAA 1.5V battery. Batteries not included.

### Guardian Svvingers

Art. no 765 000 201

Each experienced carper knows that electronic bite alarm is important, but without good mechanical indicator that's no-go. Guardian svvingers have got some notable features: spring loaded adjustable tensioning system, precise and reliable line gate system, and power out facility for illumination. High quality materials used for production are warranty of long and satisfying exploitation.

### Crafty Svvingers

Art. no 765 000 202

Those micro svvingers are well suited to every fishery, where the fishes are very cautious and hard to catch. In such circumstances, low weight of Crafty svvingers is an advantage worth mentioning. Fish can't feel the difference while taking the bait, yet the bite signalization is very clear. After unscrewing the head you can put in 3 mm chemical light. Field tested line clip doesn't harm even softest nylon, yet holds firmly till you'll put the rod to start reeling.

### Gravity

Everyone is dreaming about perfect fishing rod. Incredibly powerful, making your casts longer and more accurate, with uncommon and genuine look, with incredible fighting potential. Well, what could we say: you're looking at it right here! Gravity rods have got the power high enough to outcast any pretender and dominate any fish. This action is the outcome of individual spacing of each blank, which ensures performance impossible to imitate. When you will be facing small size catch, only the top part of the rod will bent a little, yet when some huge specimen will be hooked, blank will show its full potential and even bottom part will help you to successfully finish the fight. Woven carbon wrap is the last, finishing wrap, securing the rod from any mechanical damage.

Carplabs Gravity	Art. no	Length (cm/ft)	Casting weight (Lbs)	Weight (g)	Transport length (cm)	Number of elements
Gravity 212 2,5 Lbs	765 004 360	360/12'	2,5	362	187	2
Gravity 212 3 Lbs	765 004 361	360/12'	3	380	187	2
Gravity 213 3,5 Lbs	765 003 390	390/13'	3,5	408	202	2
Gravity 312 2,5 Lbs	765 005 360	360/12'	2,5	400	126	3
Gravity 312 3 Lbs	765 005 361	360/12'	3	430	126	3
Gravity 313 3,5 Lbs	765 005 362	390/13'	3,5	453	136	3

Carplabs Gravity 212 3 Lbs

Carplabs Gravity 312 2,75 Lbs

**Accelerate**

Rods with test curve from 1.5lbs up to 2lbs well suited as Avon rods, or as heavy float rods(i.e. to use with surface controller). Excellent casting performance allow you to locate your rig exactly in the spot you want. Light rigs will achieve impressive distances without any problem, without putting any bigger effort. Progressive action of the rods allows to catch any fish calm and effective. Blank is reinforced with woven carbon wrap, significantly increasing resilience to dynamic strikes during the fight. Another feature of X-wrap is increased resilience to random mechanical damage. Guides spacing is optimized for achieving very best operational parameters. Fuji DPS reel seat is an excellent finishing touch of those rods.

Carplabs Accelerate	Art. no	Length (cm/ft)	Casting weight (Lbs)	Weight (g)	Transport length (cm)	Number of elements
<b>Accelerate 312 1,5 Lbs</b>	765 003 360	360/12'	1,5	247	125	3
<b>Accelerate 312 1,75 Lbs</b>	765 003 361	360/12'	1,75	260	125	3
<b>Accelerate 312 2 Lbs</b>	765 003 362	360/12'	2	272	125	3

Carplabs Accelerate 312 2 Lbs

### CarpLabs® Method Feeders

are the outcome of multi-stage processing of 36T and 40T carbon mats, granting the rods with astonishing power and resilience. Notably the X-wrap technology implemented to those rods gives you full control over fish. It's utterly impossible to find any other method feeder rod with even close parameters.

Components that are used to build these rods are top notch, exactly matching their goals: fight and win with large and powerful fishes. To be exact they are equipped with Fuji DPS reel seat, Fuji Alconite type K guides, and durable rubber cork handle. Speaking about the handle, we've decided to use special rubber cork because of few features placing it high above cork: it doesn't soak with water, neither with fish smell, and doesn't have any filler which could crumble over time.

Each of our Method Feeder rods has got 2 sections and 3 interchangeable tips with different test curves, allowing to match any conditions which you could be facing. Painting pattern applied on the tips helps to notice even most delicate bites, and allows to react instantly. Dynamic power distribution lets to take even hardest beating from any fish, without a risk of damaging the blank, and decreases a risk of loss almost to zero.

Last but not least, each of these rods is supplied with high grade neoprene cover, securing it during transportation. Outer pocket for tips tube gives convenient access to any tip that you'll need at the moment.

CarpLabs Method Feeder	Art. no	Length (cm/ft)	Casting weight (g)	Weight (g)	Transport length (cm)	Number of elements	Tips (oz)

### SHORT SHANK

ART. NO	SIZE	PCS/PACK
765 102 902	2	6
765 102 904	4	6
765 102 906	6	6
765 102 908	8	6

**Short Shank.** Extremely strong hook for extremely demanding fisheries with huge fish specimens. If we would have to compare Short Shank to something common, it would be a hammer. Utterly indestructible, working always the same, well known way. This hook is not afraid of gravel, neither forceful fight among the snags. If your fishing spot is technically demanding area, this hook will be your best friend.

### WIDE GAP

ART. NO	SIZE	PCS/PACK
765 103 902	2	6
765 103 904	4	6
765 103 906	6	6
765 103 908	8	6

**Wide Gap.** This kind of hook is considered by all experienced specimen hunters as one of the best. Shape of the hook ensures effective self setting, and firmly hold the fish. Point bent towards hook's eye works well during fishing on sandy or gravel bottom, not losing anything of it's starting sharpness. Excellent choice for each method using boilies.

### CURVE SHANK

ART. NO	SIZE	PCS/PACK
765 106 902	2	6
765 106 904	4	6
765 106 906	6	6
765 106 908	8	6

**Curve Shank.** Tested in all circumstances, from small ponds, through huge, wild lakes, up to the powerful rivers. Everywhere, every time when you want to maximize your catch, this friend will help you to do so. Aggressive angle between the point and the eye will be a warranty of successful setting the hook at each bite. Perfect to use with classic hair rigs and semi stiff rigs. Depending to the size, works well through full spectrum of baits.

### CURVE SHANK BARBLESS

ART. NO	SIZE	PCS/PACK
765 116 904	4	6
765 116 906	6	6
765 116 908	8	6

**Curve Shank Barbless.** Many fisheries doesn't allow to use barbed hooks. We know that it's better to be safe then sorry. If you want to be prepared for anything, always have a chart of different sizes of those hooks, some FC line and soft 25lbs braid. Enough said, one of the best hook which we have ever had a pleasure to fish with.

**STIFF RIGGER**

ART. NO	SIZE	PCS/PACK
765 105 902	2	6
765 105 904	4	6
765 105 906	6	6
765 105 908	8	6

**Stiff Rigger.** Powerful hook working miracles with stiff rig and chod rig. Extremely sharp and catchy point makes the job done well, while PTFE coating helps to penetrate tissue with an ease. Forged profile of this hook ensures strength needed to fight enormous specimens of carp or grass carp, and micro-barb will hold the fish till successful landing.

**SPECIMEN**

ART. NO	SIZE	PCS/PACK
765 104 921	2/0	6
765 104 911	1/0	6
765 104 901	1	6
765 104 902	2	6
765 104 904	4	6
765 104 906	6	6
765 104 908	8	6

**Specimen.** Rediscovered classic. Extremely catchy model ensuring very good number of hooked fishes, forged for uncommon strength. Works well with many different baits, while the size chart allows to choose something from 3 corns on a hair, up to 30mm snowmen.

**METHOD FEEDER**

ART. NO	SIZE	PCS/PACK
765 101 910	10	6
765 101 912	12	6
765 101 914	14	6
765 101 916	16	6

**Method Feeder.** Small, yet astonishingly strong hook dedicated to method feeder fishing. Eye bent backwards allows to use fluorocarbon, monofilament and braided line. Shape of the hook is designed to maximize the number of successful hook ups. Characteristic, wide gap firmly holds the catch ensuring bigger number of landed fishes.

**METHOD FEEDER BARBLESS**

ART. NO	SIZE	PCS/PACK
765 111 910	10	6
765 111 912	12	6
765 111 914	14	6
765 111 916	16	6

**Method Feeder Barbless.** Barbless version of Method Feeder hook, sharing all the advantages with the predecessor, excluding one: the barb. Comparing the number of caught fishes, there are almost no differences between those two, yet unhooking is much easier and safer to the fish. Easier tissue penetration ensures higher number of hooked up fishes - we definitely suggest to make an acquaintance with this model.

**Safety Bolt Rig with Anti-Tangle Sleeve**  
2 PCS/pack Art. no 765 000 001

A classic rig with a safety lead clip placed on a silicone anti-tangle sleeve. Fast and easy to set up.

**Leadcore Safety Bolt Rig**  
1 PCS/pack Art. no 765 000 002

Leadcore based rig with a safety lead clip. It perfectly sticks to the bottom and does not scare the carp off from the baited up spot.

**Helicopter Rig with Sleeve**  
2 PCS/pack Art. no 765 000 003

A helicopter rig set up on a silicone sleeve is perfect for long distance casts.

**Leadcore Helicopter Rig**  
1 PCS/pack Art. no 765 000 004

The rigidity of the leadcore together with a helicopter rig makes a perfect combination for long distance fishing.

**Helicopter Rig Kit**  
2 PCS/pack  
Art. no 765 000 006

Two complete sets of accessories used for setting up helicopter rigs.

**Safety Bolt Rig Kit**  
2 PCS/pack  
Art. no 765 000 005

Two sets of the essential accessories for preparing classical bolt rigs.

### Silicone rig tubes

- $\varnothing 0,5 \times 1,8$  mm, length 1,5 m  
Art. no 765 000 009
- $\varnothing 0,8 \times 1,9$  mm, length 1,5 m  
Art. no 765 000 010
- $\varnothing 1,0 \times 2,1$  mm, length 1,5 m  
Art. no 765 000 011

Made of soft silicone these tubes are used for rigging up various terminal tackle. This is the necessary item in the fishing box of every carp enthusiast. The tube's colour blends good in different types of bottom.

### Tungsten Loaded Rig Tube

- $\varnothing 0,6 \times 1,85$  mm,  
length 2 m  
1 PCS/pack  
Art. no 765 000 012

Silicone tube weighted with tungsten dust. Eco-friendly and safe it perfectly sticks to the bottom and does not scare off the carp feeding in the fishing spot.

### Leadcore with Loop and Swivel

length 70 cm  
swivel size: 4

2 PCS/pack  
Art. no 765 000 007

This seventy-centimetre-long piece of leadcore with a #4 swivel attached to its one end can be used for setting up any rig.

### Leadcore with Two Loops

length 70 cm

2 PCS/pack  
Art. no 765 000 008

Leadcore finished with loops at both ends. Can be used as the basis for preparing various kinds of carp rigs.

**Safety Lead Clip "Classic"**  
3 PCS/pack  
Art. no 765 000 016

Safety lead clips with a soft sleeves. These rig bits are indispensable items inside the tackle box of every carp fisherman.

**Safety Lead Clip with pin**  
3 PCS/pack  
Art. no 765 000 017

Safety clip with a swivel secured with a peg. This solution guarantees a firm fixation of the swivel inside the clip.

**Soft Anti Tangle Sleeve with connector**  
colour: green, BLN  
length 50 mm, swivel size: 7  
5 PCS/pack  
Art. no 765 000 015

The size of the swivel perfectly fits the size of the sleeve. Enables quick and easy change of leaders.

**Anti Tangle Sleeve**  
Ø 3,1 mm, length 54 mm  
4 PCS/pack  
Art. no 765 000 014

Anti tangle sleeve made of soft silicone material. Necessary element of long-casting carp rigs.

**Semi Fixed Safety Beads**  
length 24 mm  
5 PCS/pack  
Art. no 765 000 023

Perfect for setting up a semi fixed or run rig.

**Bullet Beads**  
■ Ø 6 mm, length 12 mm  
Art. no 765 000 037  
■ Ø 6 mm, length 17 mm  
Art. no 765 000 038  
bag: each size 10 pcs

Bullet bead made of rubber. It protects the knot even from significant stress during casting. Comes in handy for rigging up a heli.

**Buffer Beads**  
length 15 mm  
10 PCS/pack  
Art. no 765 000 024

An important element of the helicopter rig. These bead stick tight to the swivel's body and ring.

**Tapered Cone Beads**  
length 14 mm  
10 PCS/pack  
Art. no 765 000 025

This cone bead is made of rubber and fits over #4 swivel. Overall length - 14 mm.

**Tapered Round Beads**  
Ø 2 mm - 1,2 mm  
12 PCS/pack  
Art. no 765 000 026

Round silicone bead with a tapered inside hole.

**Soft Silicone Beads**  
■ Ø 1,2 × 6 mm  
Art. no 765 000 028  
■ Ø 1,2 × 8 mm  
Art. no 765 000 029  
bag: each size 10 pcs

With an inside diameter of 1,2 mm these soft silicone beads protect the vulnerable part of the rig, that is the knot on the swivel.

**Safety Beads**  
6 × 2 mm  
10 PCS/pack  
Art. no 765 000 027

Silicone bead with an inside diameter of 2 mm. Works together with silicone tubes.

**Heli/Chod Rig Adapter Beads**  
10 PCS/pack  
Art. no 765 000 031

With this rubber bead you can quickly and easily construct both helicopter and chod rigs.

**D-Rig Hook Aligners**  
10 PCS/pack  
Art. no 765 000 033

Effective and easy to use hook aligner with a fixed loop for setting up D-Rigs.

**Rig Aligners**  
■ S Art. no 765 000 034  
■ L Art. no 765 000 035  
■ XL Art. no 765 000 036  
bag: each size 10 pcs

The right shape of this aligner improves the hook setting and prevents the carp from spitting out the rig.

**Shrink Tube**  
■ Ø 1,0 mm, length 60 mm  
Art. no 765 000 018  
■ Ø 1,5 mm, length 60 mm  
Art. no 765 000 019  
■ Ø 2,0 mm, length 60 mm  
Art. no 765 000 020  
■ Ø 2,5 mm, length 60 mm  
Art. no 765 000 021  
■ Ø 3,0 mm, length 60 mm  
Art. no 765 000 022  
bag: each size 10 pcs

With these 6-centimeter shrink tubes you can easily prepare a Wither Pool leader or conceal the knot on the swivel.

**Rubber Sleeve**  
■ Ø 2,0 × 6 mm, length 21 mm  
Art. no 765 000 039  
■ Ø 2,5 × 6 mm, length 25 mm  
Art. no 765 000 040  
bag: each size 10 pcs

This sleeve is used to protect safety clips. Made of medium hard rubber.

**Tungsten Putty**  
20 g /pack  
Art. no 765 000 013

Mouldable putty loaded with tungsten dust. It allows to balance floating boilies without any risk of damaging the leader, that can happen if you use common shots.

**Long body rolling swivel**  
colour: BLN  
■ size 4: Art. no 765 000 043  
■ size 7: Art. no 765 000 044  
10 PCS/pack

Strong and easily revolving swivel with a lengthen body.

**Long Body Rolling Swivel with Solid Ring**  
kolor: BLN  
■ size 4: Art. no 765 000 045  
■ size 7: Art. no 765 000 046  
5 PCS/pack

Swivel with an attached to one end solid ring.

**Quick Change Swivel**  
colour: BLN  
■ size 4: Art. no 765 000 049  
■ size 7: Art. no 765 000 050  
5 PCS/pack

With this swivel clip you can quickly change the leader. Made of plated brass and steel.

**Quick Change Swivel with Solid Ring**  
colour: BLN  
■ size 4: Art. no 765 000 047  
■ size 7: Art. no 765 000 048  
5 PCS/pack

Easy to use connector by means of which you will be able to set up a heli rig and change the leader quickly.

**Q-snap**  
colour: SS  
■ 16 mm size S  
Art. no 765 000 052  
■ 21 mm size L  
Art. no 765 000 053  
bag: each size 10 PCS

Durable snap available in two sizes. For quick change of the lead.

**Lock-in Snap**  
colour: BLN  
10 PCS/pack  
Art. no 765 000 054

Highly durable Hawaii-type snaps. They are good choice for attaching the lead in helicopter rigs.

**Round Rig Ring**  
colour: BLN  
■ Ø 3,1 mm Art. no 765 000 055  
■ Ø 3,7 mm Art. no 765 000 056  
■ Ø 4,4 mm Art. no 765 000 057  
10 PCS/pack

Steel rings for preparing d-rigs or blow-out rigs. They easily slide on the hook shank.

**Double Rig Rings**  
kolor: BLN  
Ø 3,4 mm  
Art. no 765 000 058  
5 PCS/pack

Connected rings designed for preparing bent rigs.

**Maggot Clip**  
colour: BLN  
■ small Art. no 765 000 059  
■ big Art. no 765 000 060  
bag: each size 10 PCS

Sharp point maggot clip.

**Pellets Stops S**  
2 PCS/pack  
Art. no 765 000 070

Pellets stops made of plastic. They firmly hold the bait even during strong casts. Available in two colours.

**Pellets Stops L**  
2 PCS/pack  
Art. no 765 000 071

Pellets stops made of plastic. They firmly hold the bait even during strong casts. Available in two colours.

**Line Tube Threader**  
1 m  
1 PCS/pack  
Art. no 765 000 068

Made of stainless cord this threader can be easily stored thanks to its elasticity.

**Silicone boilie stops**  
Art. no 765 000 069  
2 PCS/pack

Classic boilie stops made of silicone. Offered in three different colours.

**Backlead Pro**  
Art. no 765 000 061  
1 PCS/pack

Back lead kit with a winder. The 35-gram lead can effortlessly pin the line of any length to the bottom.

**Inline Bomb weight**

- 70 g 2 PCS/pack Art. no 765 033 070
- 90 g 2 PCS/pack Art. no 765 033 090
- 110 g 1 PCS/pack Art. no 765 033 110
- 130 g 1 PCS/pack Art. no 765 033 130

**Long Cast Bomb weight**

- 70 g 2 PCS/pack Art. no 765 032 070
- 90 g 2 PCS/pack Art. no 765 032 090
- 110 g 1 PCS/pack Art. no 765 032 110

**Trilobe Weight**

- 30 g 2 PCS/pack Art. no 765 320 030
- 40 g 2 PCS/pack Art. no 765 320 040
- 50 g 2 PCS/pack Art. no 765 320 050
- 60 g 2 PCS/pack Art. no 765 320 060
- 75 g 2 PCS/pack Art. no 765 320 075
- 100 g 1 PCS/pack Art. no 765 320 100
- 110 g 1 PCS/pack Art. no 765 320 110
- 140 g 1 PCS/pack Art. no 765 320 140
- 160 g 1 PCS/pack Art. no 765 320 160
- 175 g 1 PCS/pack Art. no 765 320 175

**Zip Bomb weight**

- 50 g 2 PCS/pack Art. no 765 030 050
